

# Linking IEP Goals & GLEs

**with Susan Hekmat**

**October 22, 2009**

**9:00AM - 3:00PM SE RPDC Room 202**

As the accountability for academic achievement for students with disabilities increases, educators have become more involved in the development and use of standards-based IEPs. We need to be asking ourselves: Why is the alignment of the IEP so crucial to the success of special education students?

We will focus on a step-by-step approach to develop standards-based IEP that links the annual measurable goals with Grade Level Expectations content skills and learning.
